# *Hospital Peer Review*
# *1992 Index*

***Agency for Health Care Policy and Research***
issues first two practice guidelines, JUN:87

***AIDS***
length of stay for patients varies across country, JAN:14

***American Association of Retired Persons***
opposes HCFA's CDAC proposal, MAY:70

***American Hospital Association***
admissions, LOS decline in annual survey, AUG:129
may investigate lack of data bank reports, MAR:37
publishes guide to installing clinical guidelines, AUG:132

***American Medical Association***
opposes HCFA's CDAC proposal, MAY:70

***American Medical Peer Review Association (AMPRA)***
calls for nationalization of quality concerns, AUG:131
praises fourth scope of work, DEC:185
white paper blasts CDACs proposal, MAY:69

***Baschon, Sharon***
no standardization in UR, JAN:1
UR has little top management access, APR:53

***Business groups***
gaining access to QA data, SEP:133

***Case management***
inpatient CM becoming trend, AUG:117
system evolving from critical paths, FEB:27

***Clinical Data Extraction Center***
HCFA proposes for fourth scope of work, MAY:69
HCFA explains philosophy behind, MAY:71

***Clinical guidelines***
AHA issues guide on installation, AUG:132

***Computerized patient records***
clinic works with weapons lab to develop intuitive CPR, MAR:41
development efforts in high gear, MAR:40

***Continuous quality improvement***
benchmarking is more than simple comparisons, SEP:143
collecting correct data secret to benchmarking, OCT:163
create team to track progress, JUL:111
discharge planning taking active part, APR:61
how to develop customer-based indicators, MAY:76
must include non-clinical departments, JUN:92
patient as customer a stumbling block, DEC:193
ranks third in HQCB survey, AUG:124
study to compare results with QA, FEB:21
trauma care improvement projects prioritized, FEB:31
using the trauma committee as quality council, JAN:15

***Critical paths***
concept evolving to comprehensive system, FEB:27
use in inpatient case management becoming trend, AUG:117

***Discharge planning***
active in QI, APR:61
begins early at huge hospital, OCT:157
certification being offered, JUL:110
challenge of HIV-infected children, JUL:103
communications, protocols secrets to success, APR:59
computer matches patients, nursing home beds, OCT:161
elderly patients need more home health services, APR:62
first certified practitioners announced, OCT:162
HCFA clarifies home care regulations, JAN:12
helps protect children, slash red tape, APR:58
hospital forms DP board, APR:57
include pressure ulcer prevention, JUL:108
indicators help evaluate infusion therapy, JAN:11
IV program generates savings, OCT:158
Joint commission manual should simplify things, OCT:155
new AIDS definition will broaden eligibility, JUL:106
new models reduce LOS, JAN:8
outcome audits measure patient progress, JAN:7
promoting services with innovative marketing, APR:55
Tampa hospital program saves millions, APR:49

***Drug error data bank***
established by Premier Hospitals Alliance, APR:68

***Economic credentialing***
upheld in Florida, AUG:122

***Firm system***
imported from Britain, complements TQM, FEB:23

***Health and Human Services, Department of***
issues advance directive regulations, MAY:84

***Healthcare Quality Certification Board***
1991 CPHQ exam results released, SEP:146
QI ranks third in exam survey, AUG:124

***Healthcare Quality Educational Foundation***
expands governing board by one, AUG:131

***Health Care Financing Administration***
clarifies home care regulations, JAN:12
draws back from UCDS implementation, JUN:90
drops bombshell on PRO program, MAY:78
hospital mortality report seen less threatening, MAY:78
mortality report to be revamped, SEP:147
proposes CDACS for fourth scope of work, MAY:71
releases fourth scope of work, DEC:185

***Health Care Quality Improvement Act***
provisions upheld, defined by court, JUN:85
wreaking havoc on peer review process, OCT:149

***Indicators***
Maryland project going interactive, NOV:173

***Institute of Medicine***
pushing computerized patient records, MAR:40

***Interstudy Inc.***
outcomes management program most advanced, JAN:4

***Joint Commission on Accreditation of Healthcare Organizations***
1993 standards require a CQI plan, SEP:136
confusion over QA/QI transition, DEC:187

four hospitals given "conditional" accreditation, MAY:83
gets tough on minute rewriting, JUL:97
issues report on hospital compliance, MAY:75
looking at QA minutes after New York scandal, MAY:73
new accreditation manual has 'process aligned' chapters, SEP:135
policy on fraudulent minutes, JUL:99
reemphasizing QA, NOV:169
says it has not shifted QI emphasis, DEC:189
says physicians still not involved in QA, MAY:75

*Kennedy, Elgin*
data-based UR is wave of the future, JAN:19

*Length of stay (LOS)*
continues to decline in AHA study, AUG:129
varies for AIDS patients across country, JAN:14

*Longo, Daniel R.*
leaves Hospital Research and Educational Trust, JUN:96

*Medical staff*
organization antiquated, needs updating, FEB:26

*Merry, Martin*
minutes scandal will hurt some consultants, JUL:98

*National Association for Healthcare Quality*
adds consumer to certification board, FEB:30
launches Institute for Healthcare Quality Management, MAR:47

*National Practitioner Data Bank*
AHA may investigate lack of reports, MAR:37
GAO joins fray over reporting threshold, OCT:151

*Outcomes management*
Interstudy program one of most advanced, JAN:4

*Patients*
survey finds interpersonal issues rank high, JUL:115

*Peer review*
how to improve, new look at old process, MAR:43
incorporating systems analysis, APR:65
lawyer wins access to hospital's files, JUN:91

*Peer Review Organizations*
fourth scope of work due any day, OCT:166
HCFA proposal would strip data extraction, $100 million, MAY:69
program floundering, APR:63

*Physicians*
getting them involved proving difficult, DEC:195

*Practice guidelines*
AMA issues guide to parameters, OCT:167
first two issued by federal government, JUN:87

*QI teams*
central to TQM conversion, DEC:191

*Quality assurance*
a guide to writing QA minutes, SEP:139
Joint Commission gets tough on minute rewriting, JUL:97
Joint Commission looks at minute rewriting scandal, MAY:72
QA professionals in quandary over NY scandal, MAY:73
study to compare results with CQI, FEB:21
reviewed and approved needs to be more specific, AUG:127

*Quality Assurance Certification Board*
adds consumer to board, FEB:30
changes name to Healthcare Quality Certification Board, APR:67
recognizes HPR for CE credits, MAR:48
sets deadline for exam questions, FEB:36

*Quality coordinating council*
trauma committee can serve purpose, JAN:15

*Simpson, Harold*
court provides manual for HCQIA implementation, JUN:85
economic credentialing decision a first, AUG:123

*Spath, Patrice L.*
administrators want UR productivity standards, JAN:1
age-specific QI considerations, DEC:198
analysis final step in benchmarking, NOV:178
collecting data secret to benchmarking, OCT:163
CQI must include non-clinical departments, JUN:92
create QI team to track improvement progress, JUL:111
how to develop customer-oriented quality indicators, MAY:76
how to improve peer review process, MAR:73
incorporating systems analysis into peer review, APR:65
minor rewriting of QA minutes is common, MAY:73
no productivity monitoring in UR, APR:53
reviewed and approved needs to be more specific, AUG:127
trauma care improvement project priorities set, FEB:31
trauma committee as quality council, JAN:15

*Swain, Paula*
medical staff organization is antiquated, FEB:26

*Third-party utilization review*
non-clinical staff can handle calls, AUG:119

*Total quality management*
bringing national quality organizations closer, JUL:114
British firm system complements, FEB:23
empowerment is most difficult concept, DEC:195

*Uniform Clinical Data System*
alleged to have serious problems, MAY:70
HCFA pulls back from full implementation, JUN:90

*Utilization management*
court decisions raise warning signs, NOV:171
data-based, non-punitive is wave of future, JAN:18
fax machines help with third-party calls, NOV:175
losing bad image as reviewers diversify, OCT:153
non-clinical staff can handle third-party calls, AUG:119
productivity standards hard to come by, JAN:1
reviewers average 30 charts per day, APR:52
study supports arguments for managed care, JUL:102
UR/coding teams improve cash flow, JUL:100
